

The end of the school year

Grade 5 is finishing and I am looking forward to summer holidays. I always wait for the end of school impatiently.

I like to go to the beach with my family and friends. I enjoy jumping in the sea - it is a great feeling.

I have good friends in my class. They are very funny and really cool. I am sure we are going to enjoy grade 6 as well.

Now, I am a little sad because the fifth grade is over, but it is always going to be in my heart. I'll see you in September in grade 6. Until then

BYE!!!
